## A TRUE COMPROMISE.

The Democratic compromise on a measure of tax reduction will be no jug-handle arrangement-all on one side.

Last year, and indeed up to the time of the President's Message, the Old Whig relies and the other Obstructionists would hear to nothing but a repeal of the internal taxes. They defended the war tariff, root and branch, with the blind fetich-worship of BLAINE him self. To every suggestion of a reduction in duties they set up a howl of "free trade."

But now they are willing to come to a "middle ground." The compromise which THE WORLD has favored for a year is accepted as the basis of "Democratic union." It is well.

## SHERMAN'S CHANCE.

Senator SHERMAN gives notice that after the holidays he will address the Senate on the President's Message.

Will he say "ditto" to Mr. BLAINE? Well hardly. John Sherman is nobody's fool.

It would be a most sagacious stroke for the Ohio statesman to combat Mr. BLAINE's plea for a war tariff forever and a distribution of the surplus, by favoring a conservative reduction of duties that are no longer needed either for protection or revenue, and a stop page of the surplus.

The country is moving that way. SHER way's only chance to counter on BLAINE is to favor tax reduction.

## THE BLIPPERY CORPORATIONS.

The case against the gas companies for pol futing the waters of the North and East rivers should not be permitted to fall through en account of legal technicalities.

There is no necessity of stopping at the indictment of a corporation "with no body to kick and no soul to damn." Why not also indict some of the officers and bring a civil suit against the offending companies.

There cannot be too many weapons employed in fighting the slippery corporations.

## STILL ON THE BOX.

The Mugwumps in Massachusetts still seem to be "sitting on the box and driving"-by

Two Republican postmasters have been reappointed in the Bay State, at the instance of that lively young Mugwump, GEORGE FRED WILLIAMS.

But inasmuch as both officials were capable and faithful public servants and their retention was desired by nine-tenths of the people whom they served, including the Democrats, the "irreconcilable spoilsmen," as the President calls them, will kick in vain against this application of reform principles.

The Government's business is business, not politics.

## THE OLD ROMAN.

Judge THURMAN, "the noblest Roman of them all," has consented to prosecute the election fraud cases in Ohio in response to the request of the Citizens' Committee.

The fact that the frauds were committed in the interest of Democratic candidates does not deter this sturdily honest old[statesman. He hates the fraud and will fight the rascals all the harder for putting so foul a blot upon the fame of the party that he loves.

An infusion of Thurmanism would help our District-Attorney's office mightily just

## THE CABMEN'S AMBIGUOUS DEMAND.

The striking cabmen have the sympathy of the public. But the gifted individual who evolved the following agreement for the employers to sign, is entitled to nobody's sympathy :

I do hereby agree to reinstate all my employees rithout prejudice, giving them the wages asked for, and shall sign this contract as standing good for one year.

This agreement may be interpreted in two or three different ways. It may mean that the employers agree to employ all their men at the wages asked and to retain them all throughout the year. Or, as interpreted by as of the cabmen themselves, it may mean merely that the proposed scale of wages shall

The strike seems to hinge upon this am biguity and the consequent misunderstanding. The way out of the difficulty is for the cabmen to present their case in intelligible shape.

DON'T ABUSE THE NEWSBOYS.

A correspondent very properly calls attention to the brutal treatment of newsboys by some horse-car conductors and drivers.

The newsboys have some rights that brutalminded adults should be made to respect. They board the horse-car for the convenience of the passengers, and, as long as this is allowed at all, they should be safe from kicks and cuffs.

Fortunately, most of these alert little chaps are able to take care of themselves. But it is none the less contemptible to abuse them.

"The population of the world" furnishes an eminent foreign statistician with a great opportunity for guessing. The circulation of THE WORLD is a known quantity, and can be verified by any one who will visit its pressroom and examine its books.

The Great Body of the Knights of Lab Not Affected by the Withdrawnl of Discontented Londers-The Secondon Movement Not More than 30,000 Strong-What the Kuights May About the Outlook.

The attempt of certain leaders of labor organizations, and newspapers which have ulterior motives in supporting them, to bring about a revolt in the order of the Knights of Labor is viewed by the knights themselves as of little practical account.

General Master Workman Powderly, in a recent interview, gave the true condition of affairs, and a later report from THE WORLD'S Philadelphia correspondent showed minutely the thorough and businesslike system upon which Secretary Litchman keeps the records

and accounts of the order. Five hundred thousand workers of all kinds were shown to be upon the rolls of the assemblies in good standing which render regularly their accounts to the general office. and a healthy state of affairs within the great

and figures known to many members of the order here and elsewhere.

A leading and steadfast member of the order, who is known for his sincerity and for his fidelity to the cause of labor, was asked to-day by a reporter for The World his opinion of the alleged revolt and its extent and the men who are in the movement.

"I see by some published reports," he said, "that the seceders from the order are said to number 100,000. I have means of knowing that such is not the fact, but when the leaders of the revolt, as they choose to call it, come to make up their membership rolls they will not find more than 30,000 all told, if, indeed, they will have so many.

"It is a well-known fact that a number of local assemblies—some of them very small as to membership—were suspended, a few for non-payment of dues and assessments and others for failure to make returns as required by the laws of the order and for insubordination.

"Under the last-named head came the Montauk Assembly, of Brooklyn, which set up a new district organization after secession from No. 49. The General Executive Board would not grant the Montauk kickers a charter, and could not lawfully do so and maintain any sort of discipline in the order.

"Now, the leaders of the Montauk Assembly are among the secelers as a matter of Now, the leaders of the Montauk Assembly are among the seceders as a matter of course. Events have proved the wissiom of his judgment.

The formation of the national district trades assemblies, which gives each district set of mechanics and artisans control over their own affairs without reference to any other set of workers or tradesmen, shows our attitute towards trades unions.

"These national district assemblies are numerous and powerful bodies, and have added greatly to our strength. Others are in the course of formation, and soon every distinct trade will have its charter.

"It is not our purpose to antagonize any body of workmen, but to aid them by all reasonable means in our power. But we cannot entertain turbulent leaders who seek to control and use such bodies for their own personal ends and for political purposes.

Two days ago, as he was taking a passenger up, he saw a lady standing, or, rather, half leaning against the wall of the second corridor, which is a little dark. She was quite motionless, but elegantly dressed.

On his way back he stopped, thinking the lady wished to go downstairs, although she had not signalled.

The lady did not move towards the car and did not alter her somewhat strained position. Fritz thought she might be ill, and, going over, asked if she wanted to go downstairs. No answer. Fritz was frightened. She must have a fit. He pushed gently, and instead of being roused, the lady fell stiffly to the floor and lay motionless.

Fritz was nearly frightened out of his wits. He bounced into the elevator, dropped like a shot to the office floor and told the janitor the lady was dead.

The janitor hurried to the elevator and went to the assistance of the stricken lady with a pitcher of ice water. He hurried over and lifted the prostrate woman. He had got her half up where he could see her face, when to Fritz's horror he let her thump back again on the floor and turned round laughing fit to kill.

As soon as he could control himself he said:

CHAMBERLAIN HERE AGAIN.

HE DECLARES HIMSELF WELL PLEASED WITH MR. AND MES. CLEVELAND.

While in Washington He Was Kept Busy Going Out to Dinners-The Fishery Ques tion Still as Open as it Was Before He Came-His Party to Start This Evening Joseph Chamberlain, who was sent to

America by the British Government to adjust the fishery dispute, arrived in New York late yesterday from Washington. He is accompanied by the Hon. Henry Ed-

wardes, Secretary of the British Legation, and Mrs. Edwardes, Willoughby Maycock, Mr. Chamberlain's Secretary, and J. H. G. Bergne, Head Clerk in the Treaty Department of the Foreign Office.

The party will go on northward this evening, and will join in the Christmas festivities at the home of Lord Lansdowne, Rideau Hall. Ottawa. They will go by the New York Central Railroad, and may possibly spend to-morrow at Montreal.

In the meant ime, Mr. Chamberlain, who is much like an American in his business and much like an American in his business and social manners, spent the morning in writing letters to private and public correspondents. This afternoon he is calling upon social acquaintances in town.

Among the New Yorkers honored are Chauncey M. Depew and Whitelaw Reid.

The party will return to Washington immediately after the holidays, stopping for a day at Niagara, and arriving at Washington in time for the great ball given by Sir Lionel Sackville-West, at the British degation.

He was apparently much pleased when the reporter turned to the subject of America, his impressions of it, and of Washington and official circles. He declared his pleasure at meeting Mrs. Cleveland, and praised her enthusiastically for her beauty, sprightliness and social excellencies, and declared President Cleveland, to be a man of delightful dent Cleveland to be a man of delightful frankness, good humor, and admirable for his sound common sense. Mr. Chamberlain delicately turned the subject when asked if, in the event of the death of Mr. Gladstone and consequent upon the ill-health of John Morley, it were not probable that he would be called to England to lead the Liberal party to union on the Irish question. I hope Mr. Gladstone's present good health will continue for a long time, and what night follow his death is very uncertain."

Mr. Chamberlain could not begin to guess" when he should return to London, as guess" when he should return to London, as the fishery question was still as open as when he came. This is the reply given to Erastus Wyman, and in consequence of it the banquet which the Staten Islander is to give to the visitors has again been indefinitely postponed.
